## Competition Format

The World Enduro format consists of a closed course loop (around 25km) that contains trails and 3 test sections. Each rider must complete a set number of laps (usually 3).

Scoring is based on time in test sections plus the addition of time penalties by not completing each lap under the preset time limit (usually 1.5hrs). Lowest score wins.

Once a rider is 1hr over the time limit he/she is disqualified. **Bikes do not require lighting systems or plates/insurance.**
